

Start Guest Experiences off Right With Access Control

From the moment guests arrive at your attraction, they expect and look forward to a frictionless guest experience. Ensure your operation will run smoothly from the start with access control solutions from Centaman. Our solutions allow you to offer a variety of options, from strict capacity control to straight to the gate capabilities with mobile ticketing. Centaman gives you total control while creating a seamless experience for guests.

Access Control Solutions Built For Attractions

Mobile Handheld Devices

Give your employees the tools they need to deliver exceptional customer service. Our access control solutions work with handheld devices, allowing wireless ticket scanning and validation for rides and attractions. Gain real-time access to valuable information such as ticket type, messages, remaining uses, and even membership/season pass photos.

Single Scan for Large Groups

Save time and keep lines moving by scanning one ticket for large families or groups. With one ticket for each group, you no longer have to worry about individuals misplacing or losing tickets before they reach the gate. Additionally, if group members arrive at different times, you can check in all or a portion of guests based on who is present.

Why You'll Love Our Access Control Solutions

- ✓ Frictionless guest check-in and entry
- ✓ Easily handle single guests or large groups
- ✓ Variety of ticket options: paper, mobile, wristband
- ✓ Increase revenue by creating packages using a decremented approach
- ✓ Create more return guests with season passes

Flexible Integrations

Let your access control solutions do the heavy lifting. Our solutions easily integrate to make it easy to control and operate your turnstile, gate, or doorway so that staff can get out from behind the counter. With Centaman, gain real-time access control of admission tickets, employee ID Cards, and season passes.

Straight to the Gate Ticketing

Eliminate the extra step of stopping at a ticketing booth by providing a mobile ticket to your guests upon purchase. Our access control solution readily accepts pre-printed and mobile barcode tickets. Guest simply print tickets at home or scan tickets right from mobile devices.

Print Tickets On Site

Print or collect pre-purchased tickets on-demand at your front gate or any attraction. Guests can stop by a self-service kiosk, print their tickets, or collect their wristbands and quickly enter your attraction for a day filled with fun without wasting time in line.

Decrement Scanning & Check-In

Sell ticket or ride packages with a pre-allocated number of uses to control how many times a guest can enter your attraction. In addition, get the flexibility to create packages using a decremented approach or sell an unlimited pass for use all season. Our all-in-one ticketing and access control approach ensures a fun and easy guest experience.

Additional Access Control Features

- ✓ Employee ID cards
- ✓ Season passes
- ✓ User-defined access rules
- ✓ Parking passes

We strive to ensure our software helps customers deliver a better guest experience and operate more effectively from the onset with a dedicated project manager and 24/7 support team. Our out-of-the-box solution is loaded with powerful features, and our scalable solution has the flexibility for custom development and integrations.
