

Ticketing Software For Any Attraction

At Centaman, we believe the guest experience begins with the ticket purchase. That's why we've designed our software to deliver a seamless ticketing experience that is user-friendly and built with your guests in mind. Our software offers multiple ticketing selling options, including a mobile-friendly webstore, self-service kiosk, or ticketing at your point of sale (POS) system. Ensure guests enter your attraction smoothly and have a day filled with fun, not frustrations!

Enhance the Guest Experience With Seamless Ticketing

Webstore

Our webstore is secure and easy to use, so guests can quickly register for special events or purchase their tickets and parking passes with minimal clicks. Plus, our convenient booking management feature allows your guests to make changes or cancellations to their reservations.

Kiosk

Enhance guest experiences with our easy-to-use kiosk solutions. Guests can retrieve previously booked tickets and purchase day passes or other add-ons quickly. Kiosks support multiple credentials, including paper receipts, ticket stock, barcode or RFID wristbands, and more.

Why Guests Love Our Ticketing

- ✓ Mobile-friendly webstore design
- ✓ Seamless self-service options
- ✓ Load cashless value at the POS or kiosks
- ✓ Easily manage reservations, obtain refunds, and make cancellations
- ✓ Variable and dynamic pricing
- ✓ Promotions, discounts, and coupons supporting links from websites and social media
- ✓ Group scanning via one barcode

Ticketing POS

With an all-in-one POS system, you gain the flexibility to offer many different admission options for rides, shows, movies, or add-on experiences with real-time inventory. Also, it's simple to create guest accounts, memberships, and issue cashless value from the ticketing area.

Timed Ticketing

Sell timed ticketed admission and events with real-time capacity through our POS, kiosk, and webstore. Let your guests see available ticketing options for specific time slots or preset black-out dates for holidays and attraction closures.

Special Events, Programs & Camps

Turn guests that are part of special events and programs into lifelong fans. Capture extensive data like correspondence and user-defined fields for camps and programs, including waivers, emergency contacts, allergies, shirt sizes, and more.

Variable Pricing

Offer variable pricing by season, day of the week, or time of day to maximize revenue potential, increase community accessibility, and encourage attendance on specified days. Adjust pricing by sales channel and advance purchase interval at the POS system or webstore.

Additional Ticketing Features

- Barcode, RFID wristbands, mobile, and printed tickets
- Mobile scanning app
- Upselling and add-on attractions
- Invoicing
- Waivers
- Unlimited attraction scanning or decremented access control
- Packages and guest passes
- Capacity monitoring
- Real-time data across all booking platforms
- Dynamic pricing integration
- Turnstile integration
- Resellers
- Pop-up surveys and donations
- Member discounts, coupons & promotions

We strive to ensure our software helps customers deliver a better guest experience and operate more effectively from the onset with a dedicated project manager and 24/7 support team. Our out-of-the-box solution is loaded with powerful features, and our scalable solution has the flexibility for custom development and integrations.
